DSA, OOPS, Azure AI(Microsoft global exam), CISCO(IOT,C,C++, Networking Essential, Python, Cyber Security) ,Google(Programming in Python), AWS(Cloud Courses),Oracle course

EXPERIENCE

NSCC | TEAM LEAD AND PRESIDENT AT GGCT
Sept 2022-Present
- I am leading the Newton School Coding Club at my college, Gyan Ganga College of Technology, in this Coding Club, my key role is **President** and overall **team leader**.
- Enforcing the guidelines of the club laid out by Newton School and ensuring that theclub and core team members are working according to the **schedule**, preparing timeline.

NullClass | WEB DEVELOPMENT INTERN
Nov 2022
- Created projects based on web technologies: **HTML, CSS, JS** and **DBMS**.

Techfest, IIT Bombay | DIGITAL MARKETING (CA) INTERN
Jul 2021- Mar 2022
- I received a Gold medal for **outstanding performance** in the internship with top ranking.
- Worked on marketing websites, interacted with people to promote programs, and attempted to attract a specific audience for event.
- With the most recent tools and technologies, I worked for aware peoples.

LetsGrowMore | WEB DEVELOPMENT INTERN
Oct 2022-Nov 2022
- I have created several projects in my web development internship and created a to-do list, **portfolio**, and calculator using HTML, CSS, JS, and PHP.
- I learned various technologies such as **HTML, CSS, JS,** and **PHP** as well as completed and deployed various task assigned to my team.

PROJECTS

BUILDING CRICKET VIRTUAL GAME | SELF PROJECT
March 2022 - June 2022 |
- Created a cricket game that takes various players and then plays **virtually** with innings.
- The main language in the game was **C++**, and the match lasted two innings**.**

Visit Virtually | TEAM PROJECT
Sep 2022– Present
- It is a project in which we are as a team, making an online virtual tourist visiting systemat our website with functionalities like **360-degree, 3D** view and virtually reality.
- Used technologies as **HTML, CSS, JS** and **AR/VR**technologies.

KISHAN_MAITRI | BTECH PROJECT
Oct 2022– Dec 2022
- Created a platform for farmers from which they could **directly** sell their products.
- Farmers will not give brokering charges to an intermediate broker and take advantage.

ACHIEVEMENTS
